From Stuck to Stellar: *The Magic of a Growth Mindset*

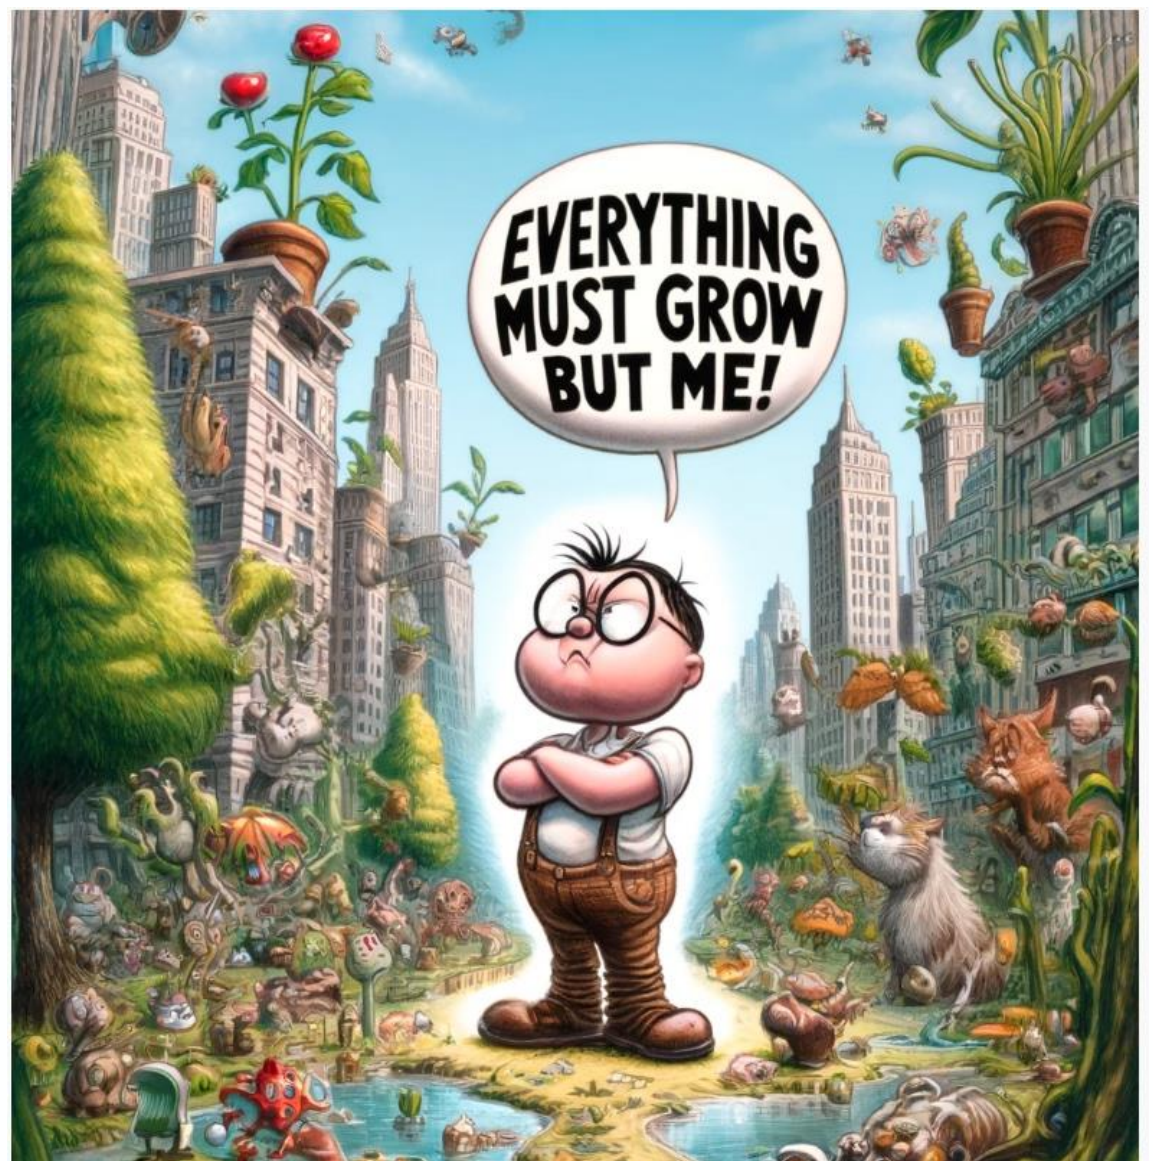

BE BOLD. Shape the Future.

Growth Mindset

- A growth mindset is the belief that one's abilities and intelligence can be developed through effort, learning, and persistence.
- People with a growth mindset tend to **embrace challenges**, *persist through obstacles*, learn from criticism, and seek out *inspiration in others' success*.
- Educationally, fostering a growth mindset can encourage students to take on **challenges without fear of failure**, view effort as a path to mastery, and increase overall motivation to succeed

- Collaborating with colleagues exposes me to new perspectives that enrich my approach
- My ability to inspire students grows with each semester as I refine my skills
- Embracing new educational technology helps me stay relevant and effective
- Mistakes are part of learning
- I commit to lifelong learning (educator and a student)
- Each day brings new lessons to master
